

Digital Programmable, Two channels

- 1) 2 Fully Digital & Programmable Channels
- 2) Wide Dynamic Range Compression(WDRC)
- 3) Hyperfine 10-band Control
- 4) Acoustic Feedback Suppression
- 5) Open DSP Platform and Optimum Target Gain Display
- 6) Scientific Algorithm Fitting
- 7) HI-FI Signal Processing Technology
- 8) Two Independent Memories (external VC optional)
- 9) Maximum Power Output (MPO) Control
- 10) Memory switch and low battery indicator
- 11) Super power available for severe to profound hearing loss
- 12) "Telecom-easy" technology
- 13) Adaptive Noise Suppression
