

PH-009(III) Pen-type good quality temperature ph tester portable ph meter

Description:

- Easy-to-read Custom Dual-level LCD
- On-the-spot measurement
- Automatic Temperature Compensation
- Tactile grip casings

It uses combined pH electrode of high sensitivity, fast response, and good repetition as probe.

With large liquid crystal digits display, the meter is reliable, stable, portable, and convenient to operate, especially for field measuring. It is praised by home and aboard. This product has been exported in batches.

It is applicable to determine pH value of water solution in departments of medical treatment, environment protection, scientific research, college, swimming pool and mechanical plant etc.

Specifications:

Measuring range

pH □ 0.00~14.00PH

Temp □ 0°C~55°C

Resolution

pH; 0.01PH

Temp: 0.1°C

Accuracy

pH: ±0.1PH

Temp: ±1°C

Operating Temperature: 0°C~50°C

Automatic Temperature Compensation: 0°C~50°C

Power Supply: 4×1.5V(AG13)

Dimensions : 170mm×36mm×23mm

Weight : 91g
